**Special characteristics:**

1. You will be intellectual and highly receptive.
2. You will be dutiful and very systematic in approaches. You will consider every minute detail
3. You will be modest, religious and soft spoken.

**Mental Characteristics:**

In your chart, the Moon is situated in sign Virgo - which is ruled by Mercury. It is a common, negative, and earthy sign. You are likely to have a quiet, easy-going, and somewhat irresolute nature; but you may not be overly ambitious, will be totally devoid of boasting habits, and always abhor vain pretensions. Although you will be endowed with a fair degree of intellectual powers, and will remain engaged in intellectual pursuits, you may rather prefer to function in a position that involves responsibility and even sub-ordination; this is since you will attach more value and importance to leading your life in peace, and always prefer to avoid unnecessary tensions.

You will remain closely attached to your home, and your near and dear family-members will make your life very joyful and happy. Agriculture, agricultural produce, medicines, herbals, food-articles, bakeries, confectioneries, domestic consumables, and other items of household applications will attract your attention more in comparison. You will develop very cordial relationships with your colleagues, superiors and sub-ordinates alike; and if you are ever employing a domestic servant, he/ she also will always remain very well disposed to you, and treat you with great respect.

Your innate nature will be quick and alert, yet at the same time you may also be somewhat secretive - which will make you unusually patient. Steep decline of family-fortune, or complex domestic disputes, or some other kind of imposed restraint or privation in early life may make you somewhat inward-looking or withdrawn. You are likely to have formal study of analytical sciences, but dexterous arts will also be of interest to you as well - you will not only have the keen desire to learn the theoretical text-matters, but will also be interested in the practical features or applied aspects - which you will consider to be more important in comparison.

You may come up with some original findings of your own, or discover some facts, or invent some appliances - which will find useful applications in mundane activities. As time passes by, your maturity and the capacity to contribute will increase; you will develop a vivacious and genial nature, brilliance in conversations, and mastery of pleasing allusions. Possibly you will undertake some journeys to distant inland or even foreign places - on an academic or cultural mission.
