English Descriptions of the Basic Placements in the Vedic Horoscope Belonging to Sample Chart

Provided by: Himalaya Vedic World +91-9760678037

Printed on 18/04/19 at 11:41:05

Below is a basic description of the main components of your chart. Memorizing these points about your chart will give you the ability to describe it to any astrologer say at a party, or over the phone. These are the main points that any Vedic Astrologer would need to know before discussing your chart. The zodiac is a belt of stars that surrounds the equator of the Earth and is divided into twelve major divisions of space each being 30 degrees of the total 360 degrees of space surrounding the Earth. At the time you were born, one of these twelve signs was visible in space on the Eastern Horizon from the place you were born. This "rising sign" sets up the basic structure of your chart and is very important. It is a physical fact that the exact zodiac sign specified in your Vedic chart *was actually rising* on the Eastern Horizon as seen from the city of your birth. Also, the positions of the planets given in your chart *were actually exactly where* the planets were at the time of your birth. Counting the zodiac signs *from your rising sign* sets up the *houses* of the chart. Each sign is *ruled* by one of the planets, who is then called *the lord* of that sign. Since each sign is in their order *one of the houses* then each planet becomes therefore *lord of a house*. Actually, most planets rule two houses each, except the Sun and the Moon, which rule only one each. Each house stands for different affairs of life, and the *lord* of the house carries that aspects of life with it wherever it has gone to in the chart. For example, the *lord of the 9th house* carries with it the ability to grant fortunes, so the house it goes to in any chart is greatly benefited. Therefore, if the lord of the 9th house is in your 2nd house, which rules your bank balance situation, then it grants an increase in fortune there, meaning it is a good placement for wealth. Now let's list out your basic placements:

You have Scorpio rising. This is also called "your Ascendant" or "your rising sign", and in India it is called your "lagna" pronounced "lug-na". Since the signs always proceed in a set order from the rising sign, you thus have Sagittarius in your 2nd house, Capricorn in your 3rd house, Aquarius in your 4th house, Pisces in your 5th house, Aries in your 6th house, Taurus in your 7th house, Gemini in your 8th house, Cancer in your 9th house, Leo in your 10th house, Virgo in your 11th house, and Libra in your 12th house.

The Sun is in the 6th house, in Aries.
The Moon is in the 2nd house, in Sagittarius.
Mars is in the 9th house, in Cancer.
Mercury is in the 5th house, in Pisces.
Jupiter is in the 8th house, in Gemini.
Venus is in the 7th house, in Taurus.
Saturn is in the 10th house, in Leo.
Rahu is in the 11th house, in Virgo.
Ketu is in the 5th house, in Pisces.

Mars is lord of the 1st house and is in the 9th.
Jupiter is lord of the 2nd house and is in the 8th.
Saturn is lord of the 3rd house and is in the 10th.
Saturn is lord of the 4th house and is in the 10th.
Jupiter is lord of the 5th house and is in the 8th.
Mars is lord of the 6th house and is in the 9th.
Venus is lord of the 7th house and is in the 7th.
Mercury is lord of the 8th house and is in the 5th.
Moon is lord of the 9th house and is in the 2nd.
Sun is lord of the 10th house and is in the 6th.
Mercury is lord of the 11th house and is in the 5th.
Venus is lord of the 12th house and is in the 7th.

This section gives the names of the 9 planets used in Vedic Astrology, along with the Ascendant, which an important point in your chart, much like a planet. The ascendent is that exact degree in the sign which was rising on the eastern horizon at the time of the event for which the chart was cast (usually a birth time, but not always). This chart shows the Ascendent and planets along with their exact degree locations in the signs they were in, as well as which of the 27 principle stars each was under, the lord of that star and the 1/4 division of that star. These attributes form the basis of your chart and are carefully reviewed by Vedic Astrologers.

This next section shows where the "Lords of the houses" have gone to. This is an important part of creating the readings for your chart. The houses stand for various parts of life. The planet that is the "Lord" of the sign in a particular house is responsible for delivering much of that house's effects. The house where the Lords reside receive that influence. One simple example: The 10th house has much to do with career, and the 2nd with food. If the lord of the 10th is in the 2nd, the person may be found in a restaurant or food related business. Each house stands for many things, so the combinations in this way are many.

This section deals with one aspect of the strengths of the planets known as Sthanabala, which means "Postional Strength". This is only one of six different factors contributing to the judgment of a planets strength in the horoscope. Therefore, just because a planet is either very good (exalted), or very bad (debilitated) here, it is not the only qualification by which the planet's effects are to be judged. However, this is one of the most immediately important factors for astrologers to use.

Sample Chart

Artistic Talents	You are likely to have artistic inclinations or even pursue a career in art, especially if the involved planets are located in favourable houses.	Venus conjoins Saturn or Saturn is in 12 from Venus or Venus is aspected by Saturn.
Bhratruvridhi	In this combination, the third house, the lord of the third or Mars, the Karaka of the third are somewhat strong, which tends to bless life matters connected to that house, like younger siblings, communication abilities, higher education, courage, energy and prowess.	Mars is considered Strong in Shad Bala or the lord of the 3 is considered Strong in Shad Bala, and Mars is aspected by a benefic or the lord of the 3 is aspected by a benefic or 3 is aspected by a benefic.
Chandra Mangala by Aspect	In your chart, Mars is aspecting the Moon, which is a weak version of "Chandra Mangal" Yoga, where Mars and the Moon occupy the same constellation. This combination will definitely give your mind a passionate streak. You tend to be fiery and energized and sometimes impatient and quicktempered. How exactly this will effect your life depends on different other factors in the chart, like what other aspects the two involved planets receive, what houses they occupy, and whether Mars is a benefic or a malefic for the rising sign.	Moon is aspected by Mars.
Daridra	A variation of "Daridra" Yoga is present in your chart. At times you will experience some poverty or financial difficulties. This is a common and general combination that many people have, and it accounts for the general type of troubles that come and go in most of our lives.	The lord of the 5 conjoins the lord of the 6 or the lord of the 5 conjoins the lord of the 12 or the lord of the 5 conjoins the lord of the 8, and is not the lord of the 5 is aspected by a benefic, and is not the lord of the 5 conjoins a benefic.
Fortunes	The Ascendant lord, Venus or Jupiter are located in a Kendra, which will bless your overall live to some degree. To have at least one good angular placement is of advantage for material life in general. If all three planets are in Kendras, then the Yoga would have an accordingly more strong and powerful effect. Fortune, wealth and other material blessings would be almost guaranteed throughout life.	The lord of the 1 is in a kendra or Venus is in a kendra or Jupiter is in a kendra.
Happy	A well aspected fourth house or a favourably placed fourth lord can indicate living in nice houses, owning nice cars and having a fortunate mother or having a good relationship with her. It is a beneficial indication for overall happiness in life.	The lord of the 4 is aspected by Jupiter or the lord of the 4 conjoins Jupiter or 4 is aspected by Jupiter or Jupiter is in 4.

This placement comes once every 12 years and lasts for a year, so everyone born during that year has this Jupiter in Cancer. It marks a particular generation as a little special.

You are able to enjoy respectability, culture, social prestige, renown, and wealth. You can become proficient in the higher branches of knowledge. This means that it is favorable for you to study the ancient scriptures on subjects such as astrology, chanting of sacred hymns correctly, speaking on the meaning of the scriptures etc.

Venus

Your personal beauty and sense of pleasure is nicely and strongly under the influence of Saturn because your Venus is in one of Saturn's signs and also aspected by Saturn. This placement grants a good position, especially amongst true intellectuals and the working class, gives you luxuries of many types. But, the nice thing is that you remain "a person of the world", not averse to third world cultures or peoples. You move naturally amongst the downtrodden and shine amongst them. You make the old cultures and ways seem beautiful and worldly. A natural placement for one found importing antiques from foreign cultures, or dark, older antiques, or helping to uplift the masses very carefully and beautifully.

Venus provides a sensitivity which enables you to vibrate to a higher frequency and learn how to dissolve your self-consciousness by merging it with something else. The object of assimilation may be an ideal for which you fight, a goal you want to achieve, or even the beloved with whom you desire, but the central theme in all of these is self-forgetfulness, aroused by sensitivity and the desire for union with something sublime, higher than oneself. You are a money-lender; all are indebted to you. Grows richer. Religious, charitable, daily distribution of free food; known for piety. Gain through servants, attendants and relatives. Robust. There isn't a man in town who does not take a loan from you. They pay interest and make you richer. Your residence is outstanding. Gain through brothers and physical comforts. Pious and generous. Stout, large hearted, blessed with spouse, friends; service to preceptor; kind host; prosperous; learned; fortunate; self-made; patrimony for the good of respectable people, festivity, pilgrimage, guests. Contented, simple living, thin, respected by own community. Wealth gain in 15th year and luck in 25th. Gain of garments. Calm and balanced, conveyance. Devout, austere, offers adoration, oceanic sign on the feet, enjoyments and sexual pleasure, blessed with a long living father. You have a very refined and artistic

temperament; intellectual giant for all kinds of intellectual exercises; kind and sympathetic; fond of art and music, pure literature, social intercourse with intellectual persons. Success abroad, gain through travel and sea voyage. Gain through relatives by marriage, marriage to a foreigner, or to one like-minded.

Venus has much to do with our sense of beauty and pleasures and Aquarius is a sign ruled by "low class" yet "truly philosophical" Saturn. The combination of these two in your chart means that your sense of beauty will not be the "norm" but rather, shaped by an appreciation for the earthy, the basic, the third world, the deep, the working class. For example, in America, although Mexico is considered a much "poorer" country, still, some Americans find it in Vogue to dress in colorful and festive Mexican clothing, and they like the connection between "the real people" of the poor countries and themselves, feeling that it brings them closer to "real beauty". They prefer to dress like the peasants of the third world, as opposed to wearing the stream lined fashions of their own society. This kind of connection is indicated by this combination. It further indicates that you can be very thoughtful about romance and love, philosophizing on these matters at length. Aquarius is a very philosophical and high-minded sign, indicating the descent of divine truth on one and all. Venus rules over romance and love in general. So, this combination is a natural one found amongst those who think much about the truth regarding love and pleasure.
